Structured Cabling

Everything starts with a properly designed, installed and tested Structured Cabling Infrastructure to support your team for network connectivity, audio visual systems, video surveillance, access control and numerous other building management solutions. R-Options has the ability to provide a solution for an entire new facility or renovated building or simply dispatch a service technician to your facility for troubleshooting, repair or the installation of a single cable. We also provide a 25-Year, end to end Hubbell Mission Critical System Warranty for all new implementations!

- ▶ Category 6 + 6A Copper
- ▶ Multimode + Single Mode Fiber
- ▶ Indoor, Underground, + Aerial
- ▶ Fiber Fusion Splicer
- ▶ Data Center Buildouts
- ▶ New Construction + Renovations
- ▶ Closet Buildouts + Clean Ups
- ▶ National Rollouts
- ▶ Wireless, IP Clock, + IP Lighting

Audio + Video

As part of our full solution offering, R-Options engineers and technicians can provide entire building Audio Visual solutions to support thousands of students or install a single Web Video Conferencing Solution in your boardroom to meet your needs. R-Options has partnered with industry leaders such as Atlona, Epson, NEC, Samsung and Sony to be able to provide an end-to-end solution for all of your Audio Visual requirements. Our Audio Visual team works closely with our Structured Cabling division to make sure that our customers are experiencing a seamless end to end solution.

- ▶ Web Video Conferencing Solutions
- ▶ Projectors + Smart TV's
- ▶ Digital Signage + Video Walls
- ▶ Sound Systems / Speakers
- ▶ Atlona Control Systems
- ▶ White Noise + Intercom Systems
- ▶ Acoustic Treatments / Panels
- ▶ Cell Phone Signal Booster Solutions

Video Surveillance

Access Control

Another key component of our Structured Cabling infrastructure is the support of your Video Surveillance and Access Control security concerns. R-Options provides various IP and POE based solutions that allow our clients to have a centralized solution for remote monitoring, viewing and access no matter how far apart the facilities are located from each other. We have the knowledge to design a solution to provide the coverage areas required for your organization from a video surveillance perspective and also secure needed areas throughout your facilities with a well-designed Access Control solution.

- ▶ IP Based Cameras
- ▶ PTZ, Infrared + POE Cameras
- ▶ Indoor + Outdoor Installations
- ▶ IP Based Access Control Systems
- ▶ POE Powered Door Locks
- ▶ Proximity Card, + Biometric Access
- ▶ Security Gates / Parking Lots
